

# Everything Is Beautiful

[Kylie Minogue](#)

Beautiful, beautiful I'm losin' my way in this night  
Walkin' away from the light  
Surrender will be my escape  
Breakin' the walls of my mind  
I'm one step ahead of the truth  
I hear what I want to hear and I hear you And if I lie with you long enough  
I can see the things I'm dreamin' of  
Let's go through the ritual  
Until everything is beautiful  
Beautiful, beautiful I'm gettin' a taste for this high  
Surrender the rules of what's right  
But foolin' myself feels so sweet  
Reality looks black and white  
Pulling the rip cord I dive  
It's a cardboard kingdom but it makes me feel that If I lie with you long enough  
I can see the things I'm dreamin' of  
Let's go through the ritual  
Until everything is beautiful  
Beautiful, beautiful And now I'm traveling at such blissful speed  
No need to think at this velocity  
The things I fear begin to fade to black  
Now I've burned my map and I won't go back 'Cause if I lie with you long enough  
I can see the things I'm dreamin' of  
Let's go through the ritual  
Until everything is beautiful And if I lie with you long enough  
I can see the things I'm dreamin' of  
So let's go through the ritual  
Until everything is beautiful  
Beautiful, beautiful, beautiful
