

Behind My Eyes

The Elwins

On a holiday
or a special vacation
Minds are drifting out to a new location
What an easy way
to get away away for a while
Don't bring a thing
because we won't be moving a mile
It's all in a dream
And it's the best place I've been
Up in the sky with no aeroplane
Loving every minute of paradise
Behind my eyes there's no goodbyes
In a sordid way
I had an awful day yesterday
I lost my cool with my girl
so she tippy-tip-toed away
Here I am, wow, I'm a lonely guy
No one cares for me
I went home that night and cried myself to sleep
Should've been in a dream
Cause that's the best place I've been
Up in the sky with no aeroplane
Loving every minute of paradise
Behind my eyes there's no goodbyes
Up in the sky with no aeroplane
Loving every minute of paradise
Behind my eyes there's no goodbyes
