

Angel Rays

Sissel

The time we lost, you held your cross
No tears did your eyes tell
The time you lost, no matter what the cost
Your strength it saw you through But time will heal what your heart conceals
And this I know too well
The road you've known that takes you home
Is waiting strong and true For this child of mine
Shell forever shine
Angel rays
Watch over you But time will heal what your heart conceals
And this I know too well
The road you've known that takes you home
Is waiting strong and true For this child of mine
Shell forever shine
Angel rays
Watch over you For this child of mine
Shell forever shine
Angel rays
Watch over you Angel rays
Angel rays
Angel rays
Watch over you
