Over You

Acceptance

Getting over you, oh
Getting over you, oh
Hopeless
A single word that you would not expect from me, from me
I take it like it's coming from an enemy scene was meant to be
I see it coming after all the worst of me would fall
Make this now or never
See it on my face I'm getting over you, I'm getting over you
The place it takes me now well is it far enough
I?m getting over you make this now or never
Countless
The moments I would kill to keep this day away, away
I see it coming after all the worst of me would fall
I take it like it's coming from my greatest enemy
Make this now or never
See it on my face I'm getting over you, I'm getting over you
The place it takes me now well is it far enough
I'm getting over you make this now or never
Hopeless, I don't have to take this
Countless, see it on my face, oh
Getting over you oh oh oh oh, getting over you
See it on my face I'm getting over you I'm getting over you
The place it takes me now well is it far enough
I?m getting over you make this now or never
Hopeless, I don't have to take this
Make this now or never
Countless, see it on my face
I'm getting over you
