

Cheque In the Post

General Public

cheque in the post, cheque in the post i'm looking for a world that cures my fears

wishing that security was here

forgetting all the rudes + bads + wrongs

wanting all the wants that make you strong

those moments when you want to be on top

knowing there's a day you'll have to stop

remembering the way i got this far

write it in ink i'll take it cheque in the post

never know what's coming down your way

turn time around

to make the bad things go away

cheque in the post you never know what's coming down your way some things can make you change your mind

it's not how you do it, it's who you know

discover all the routes and paths to take

look out for the cons the sharks and the fakes

i was looking to be free but that came last

trying to escape but not so fast

knowing that i'm bound to go astray

maybe i'll try another cheque in the post

never know what's coming down your way

turn time around

to make the bad things go away

cheque in the post

you never know what's coming your way

aaaaahhhhhh

cheque in the post cheque in the post i'm looking for a world that cures my fears

wishing that security were here

forgetting all the rudes and bads and wrongs

wanting all the wants that make you strong

these moments when you want to be on top

knowing there's a day you'll have to stop

remembering the way i got this far

write it in blood, i'll take it cheque in the post

never know what's coming down your way

turn time around

to make the bad things go away

cheque in the post

you never know what's coming down your way cheque in the post, cheque in the post

cheque in the post, cheque in the post
