

# You Know I'm Gone

Owen Campbell

I've been walking  
Many miles  
Back and forward in this cell  
No clock ticking  
Just my mind  
I can't find the will to breath  
My breathe has carried on  
You know I'm gone, gone, gone, gone.  
Yes, I'll protect you  
But you pay your dues  
You see that man?  
I want him killed  
Do it quick son  
And in a quiet place  
And I'll got your back in here  
The madness carries on  
We know we're gone, gone, gone, gone.  
I can't sleep  
It eats my mind  
Memory from the outside  
Baby don't come visit  
Keep your sweetness back  
All it does is bring you pain  
I can see it your eyes  
You know I'm gone, you know I'm gone.  
I can't see it your eyes.  
You know I'm gone, gone, gone, gone.  
Know I'm gone, gone, gone, gone.
