Heather

Written By David S Theroff

Jan 2003

I remember when I first met you  
I saw your future in my eyes  
You came to us as a gift of life  
We waited for this day, forever

Now your learning and growing each day  
Someday's you don't like what I say  
I look at you and I think of my past  
What a difficult time that was

I hope you don't go down my path  
it was hard on all of us  
You've got the love that a father can give  
Something I always wished I had

I hope you can forgive me now  
Never raised a child before  
Ill make mistakes and I might be wrong  
Gonna do my best for you

I see the future and I see you leave  
You've got to have a life of your own  
giving you things I think you'll need  
someday you'll be in your own home

You'll always be a part of me  
my life changed because of you  
Someday you will understand  
when you experience this too

I remember when you first met me  
You saw my future in your eyes  
I came to you as a gift of life  
You waited for that day, forever
