Southern Girls

Accelerators

I been north, I been east to the California beach
There's only one place I know where to find you
And you southern girls got a way
With your words and you show it
You say hump and I'll jump, you say go and I know
Waste no time getting so close to you
And you remember the way to find out
That I wanted to thank you
Ooh, baby needs some brand new shoes
You get out on the street, you got nothing to lose
I feel you're crazy and everyone says it
Southern girls, you got nothing to lose
I've been up, I've been down
I've been weak, I've been strong
But I've never met someone like you
And you'll never know that if I found you I'd thank you
You say hump and I'll jump, you say go and I know
Waste no time getting so close to you
And all you southern girls got a way
With your words and you show it
Ooh, baby needs some brand new shoes
You get out on the street, you got nothing to lose
And I feel you're crazy and everyone says it, yeah
Southern girls, you got nothing to lose
Southern girls, you got nothing to lose
You might think this boy loves you, southern girl
You can make it hard, oh, so hard
I been north, I been east to the California beach
There's only one place I know where to find you
And you southern girls got a way
With your words and you show it
Ooh, baby needs some brand new shoes
Yeah, you get out on the street, you got nothing to lose
I feel you're crazy and everyone says it, yeah
Southern girls, you got nothing to lose
Yeah, southern girls, you got nothing to lose
Southern girls, southern girls, southern girls
