Saw Something

Dave Gahan

After the storm had passed
I wondered how long
The break in the clouds would lastI saw something in your eyes, I'm sure
Baby, I saw it
Something in your eyes
I wanted it for myselfI sit and I wait and I stare
Still wishing for a divine intervention
To lift me from my chairI saw something in your eyes, I'm sure
Baby, I saw it
Something in your eyesI saw something in your eyes, I'm sure
Baby, I saw it
It was something in your eyes
I wanted it for myselfYou and I have come so far
We've reached beyond the farthest star
Time and time and time again
I want you back, you were a friend
We can't pretendI saw something in your eyes, I'm sure
Baby, I saw it
Something in your eyes
I wanted it for myself
