

# Cotton Wool

[Diesler](#)

Here's my love  
Step inside  
Let me warm you up  
By the fire in my heart Step inside  
Close the door  
On the wind of fear  
Brewing up behind you You could stay here  
Make your home here  
Hideaway here  
I could wrap you up in cotton wool Here's somewhere you could let your love run free  
Come and give your soul a resting place  
Finding someone is like finding yourself a home  
If the key fits, just open the door 'Cause you're never gonna spend a lonely day here  
Come and watch your fear fly away  
And you'll never hunger for a greener side than here  
Gonna wrap you up in cotton wool and save you, and save you Where's your love? Let me in to find the warm  
fire  
That I know is there inside you  
Let me in, it's cold outside and I'll grow there  
Find that place deep down inside you You could hold me  
And protect me from all harm  
You could love me  
You could wrap me up And I could stay there  
Make my home there  
Hideaway there  
You could wrap me up in cotton wool
