

Every Day

[Eric Prydz](#)

If everyday goes like this,
How do we survive?If everyday goes like this,
How do we survive?We're working late on the night
Shift to get peace of mindIf everyday goes like this,
How do we survive?We're working late on the night
Shift to get peace of mindIf everyday goes like this,
How do we survive?We're working late on the night
Shift to get peace of mind...If everyday goes like this,
How do we survive?We're working late on the night
Shift to get peace of mindIf everyday goes like this...We're working late on the night
Shift to get peace of mindIf everyday goes like this,
How do we survive?We're working late on the night
Shift to get peace of mindIf everyday goes like this,
How do we survive?We're working late on the night
Shift to get peace of mind
