

Heaven

Ziggy Alberts

[Verse 1]

So nobody puts heaven like I do
So nobody else knows what's really goin' on
And you're kind of like coffee, I
Know you ain't always good for me, but
You keep me up for a long time, you
Keep me up on those long drives [Chorus]
I, I won't give you up
There's things I just don't know how else to say
These things that I'm most worried about, is that heaven might
Come down and steal you away,
Is heaven might come down and steal you away,
Heaven might come down and steal you away,

[Verse 2]

See love's kind of like the ocean, dear, just
Got to learn how to swim, because
No-one's ever said that it's better out than its in
And there hasn't been a time yet, when
I've been watching you get undressed,
My jaw doesn't drop to the floor,
My jaw doesn't drop to the floor,

[Chorus]

I, I won't give you up,
There's things I just don't know how else to say
These things that I'm most worried about, is that heaven might
Come down and steal you away,
Is heaven might come down and steal you away,
Heaven might come down and steal you away,
Is heaven might come down and steal you away
