

Let Love Down

Lady Gaga

I can't remember when he looked at me and cried
Said something broke inside of you
Were my best friend
Whatever come our way
You know I'm your girl till the end When I finally go away
I know you'll look for me one day When you let love down
Oh, you let love down
I don't have to remind you
But you know that I'm around
When you let love down
Oh you let me down
Get a little love down
Let it down, oh, oh I can't remember when
You put your hands on mine
But couldn't play in time when we
Were not together
Just sing a little song
Blueberry kisses forever When I finally go away
I know you'll look for me one day
Oh, yeah, it's so sad When you let love down
Oh, you let love down
I don't have to remind you
But you know that I'm around
When you let love down
Oh you let me down
Get a little love down
Let it down, oh, oh Ohhh, ohhh
Don't let me down
Ohh, don't let me down
Ohhh, ohh When you let love down
Oh, you let love down
I don't have to remind you
But you know that I'm around
When you let love down
Oh you let me down
Get a little love down
Let it down oh, oh
