

# Just In Time

## The Doobie Brothers

Patrick simmons Just when you think you've seen your darkest night  
Look around

Over there someone's waiting, right now

Right now, just to make things right Love comes just in time

Without lovin' the sun don't shine

Love comes just in time

Oh baby, love is all that we wanted

Oh baby, love is all we need And when you think that love has let you down

And every place you go it seems like such a lonely town

You gotta just run away

As fast as you can

Reach out now, baby

And love will take your hand
