Emerald Night

Artrosis

Emerald Night, in a crystal castle,
Waking up, Falling asleep, always in each other's arms,
Emerald Night, in a crystal castle,
Waking up, Falling asleep, always in each other's arms,
Empty eyes are full of lies, empty eyes are full of lies,
but I still keep loving you
Like thousand suns and
Thousand roses are in fairy bloom and
Thousand roses are gold
Unfold their magic dreams
In a emerald night
In a crystal castle
Where a thousand roses are in fairy bloom and
Thousand roses are gold
Unfold their magic dreams
In a emerald night
In a crystal castle
