We're Not Alone

Dinosaur Jr.

I've been lying softly, glued to the ground
I don't need to listen, I just need to sound
We sit on together, let me out
And when it's almost over, there's a doubt [Incomprehensible]Wanted you to save, I wanted you to save
I wanted you to save me now
I wanted you to save, I wanted you to save
I wanted you to save me nowYou keep an eye on my eye, you keep me straight
Keep an eye on every move I make, I thank you
Keep [Incomprehensible]
Keep me guessing, keep me, keep me on aweI wanted you to save, I wanted you to save
I wanted you to save me now
I wanted you to save, I wanted you to save
I wanted you to save me now
Like you are now, you know howIf you say we're not alone, if you say we're not alone
If you say we're not alone, if you say we're not alone
If you say we're not alone, if you say we're not aloneIf you say we're not alone, if you say we're not alone
If you say we're not alone, if you say we're not alone
