

# Snow

## Toothgrinder

Snow sleep, a good rest  
Sometimes can't, past impaired  
My countryside wanderlust  
I will always be the author of my life So long, so long  
I won't wait for you  
I won't wait for you  
So long, hold strong  
Time won't wait for you  
Time won't wait for you  
Honesty, a liar's game  
A checkered board with broken shame So long, so long  
I won't wait for you  
I won't wait for you So long, hold strong  
Time won't wait for you  
Time won't wait for you  
So long, so long  
I won't wait for you  
I won't wait for you  
So long, just hold strong  
Time won't wait for you
