

Happy In Love

Dear And The Headlights

Old lies
Half right
Happy in love
Long list
In black pen
Happy in love
Loose grip, and tight lipped
Thinning your blood
Begging
Not sleeping
Happy in love
Coming over and apart

Lonely, I look at you
You're shaking and so confused
I'm lost somewhere here in my mind
Perfect but no feeling left
Happy in love
A slow drift
You don't notice it
Happy in love
Coming over and apart
Lonely, I look at you
My dead logic overview
I'm buried out back there in my mind.
