

Winter

Money Man

[Chorus]

I stack for the Winter
Got plenty of women
Exotic my reefer
My prices be cheaper
My car a two seater
This hybrid sativa
I Fendi my sneakers
My side bitch a teacher
Bought two houses two grow it in
I only go in, they secret
I dont want my neighbors to get know so i sneak it
Get high let lil mama
Yeah I had her weeping
But i had her sucking and swallowing semen
My daughter a angel but my car a Demon
I came from the streets yeah the motherfucking cement
Im always strong boy you can't find a weakness
She hit my built and she took off to Venus
Trap house got sticks so you niggas can't breach it
Heard you ain't solid so no i can't feed you
You not a wolf dog so no i can't feed you
Re'd up myself nigga no i dont need you
Ain't talking birds when im keeping it eagle
In the streets im a legend just like im a Beatle
Im selling gas where im from it ain't legal
I distribute it and i supply the people
Yeah yeah
She hit my blunt and she went to Uranus
Her body a work of art just like a painting
A nigga try me and its gone be a slaying
Old school chevelle and i just got it maintenance
Gold on my neck like a mothefucking ancient
I want that check right now i be so anxious
Serve you a P while im rocking Givenchy
My truck be white like a motherfucking honkey
Lastest drip on me they ship before they launch it
Show some respect when you talking to bosses
Fucked her all night and it got me exhausted

Count up the check on the top floor apartment
You niggas soft as fuck you niggas harmless
Draped up, designer on all of my garments
Flew to NY, just to shop up at Barney's
Camouflage Gucci like im in the Army
Sold him 10 bags of exotic at Hardees's
50 racks stuffed in these jeans by [?]
100 pounds inside the house and the curing

[Chorus]

I stack for the Winter

Regular gas in, exotic come Monday
Ain't go to church i was trapping on Sunday
Balling on niggas like Antetokounmpo
White collar dollars i found me a loophole
Lil btch from Glenwood she twisting my new grow
Indoor Gelato i got it for two fo'
Fruit Loops for 19 but that's just some green house

She come to my house to get a back beat out
Lost so many packs to UPS
I got gray hair from all the stress
Im selling gas bags with no regrets
He tried to play me got shot in the chest
I need 5 million from labels and no less
All this trap money i receive im so blessed
My nigga shooters and all of them soldiers
When it come to street shit my nigga im the culture[Chorus]
I stack for the Winter
