

Lux

Big Deal

No she doesn't need a doctor
To tell her whats on her mind
And I don't need a letter
To know that the feelings not right Oh when she lets us in
She's giving everything
They're crawling in my skin
And I'm a part of them You are my sister, singing out of tune
You can't make it right, oh, you can try
You are my sister, singing out of tune
You can make it right or you can try
You can make it right or you can try
All the hurt you've forgotten
Won't go away with time
All that's not been forgiven
Is waiting on the other side Oh kids can be so cruel
But you were always cool
They're crawling in my skin
And I'm a part of them You are my sister, singing out of tune
You can't make it right, oh, you can try
You are my sister, singing out of tune
You can make it right or you can try
You can make it right or you can try
Oh, you're love
Oh, you're love
Oh, you're love
Oh, you're love
