

# Cure for the Common Heartache

**Terri Clark**

This mornin' I'm achin' all over  
Can't eat, can't sleep, can't rest  
Oh, I need to go see a doctor  
For this achin' down deep in my chest Is there a cure for the common heartache?  
An unknown prescription any loser can take  
I'd be the first to become addicted  
If there's a cure for the common heartache I know right where I got it  
This sickness that's got me laid up  
I don't have the strength now to fight it  
This old condition called love Is there a cure for the common heartache?  
An unknown prescription any loser can take  
I'd be the first to become addicted  
If there's a cure for the common heartache Is there a cure for the common heartache?
