Chillin' It

Cole Swindell

I got my shades on top back
Rollin with the music jacked
One on the wheel one around you baby

Little sun left to burn in the blue sky
Shinin' off the cross hangin' from the mirror of my ride
Breeze blowin' in, your hair blowin' round
Youâ€™re scanning through the stations lookin' for that country sound
The good stuff iced up in the back seat
No where to go, no where to be

Chorus:
I got my shades on top back
Rollin with the music jacked
One on the wheel one around you baby
Sunset i bet there's a chance we can get
Shore enough tangled up laid back and lazy

Pour it on easy now donâ€™t spill a bit
Nothing but time tonight lets get to killin' it
Long as I'm rockin' with you girl
You know im cool with
Just chillin' it

Nothing but two lane country on up ahead
Girl you so fine i wouldnâ€™t mind if this is all we did
You got me high on kisses
You got me missin' signs
Hard lookin' left when my world is on my right

I got my shades on top back
Rollin with the music jacked
One on the wheel one around you baby
Sunset i bet there's a chance we can get
Shore enough tangled up laid back and lazy

Pour it on easy now donâ€™t spill a bit
Nothing but time tonight lets get to killin' it
Long as I'm rockin' with you girl
You know I'm cool with

Just chillin' it

Nothing like a little you and me low key
Right now I'm right where I wanna be

I got my shades on top back
Rollin with the music jacked
One on the wheel one around you baby
Sunset I bet there's a chance we can get
Shore enough tangled up laid back and lazy

Pour it on easy now donâ€™t spill a bit
Nothing but time tonight lets get to killin' it
Long as I'm rockin' with you girl
You know I'm cool with
Just chillin' it
