

Midnight Sun (2010 - Remaster)

Badfinger

Oh no

Oh no

I think it's time for me to run
Well I've been working all the summer
Waiting for the winter to come
And if you feel like reminiscing
Well come into the midnight sun Oh yeah
Oh yeah

I think I've been away too long
Well I've been coming and I'm going
All the time is growing with fun
And if you feel like something's missing
Well come into the midnight sun Never be a gooseberry for gooseberries should never see it
Drop the one who's looking at you
Looking at the one who's seeing you be it Oh yeah
Oh yeah

I think I've been away too long
Well I've been waiting all the summer
Counting all the trophies I've won
And if you feel like reminiscing
Well come into the midnight sun
