

Black Lotus

Manilla Road

The time is right
This very night
To smite the horde
With fire and sword
I have found the man
Who can fight the damned
Wit the power pure
No hell can endure With darkness soon
And the rising moon
He will see
All the lotus dreams
Lady of the light
Show this amn tonight
What it's like to feel
The dreams become so real Help me please
I'm on my knees
The lotus freeze
Has got a hold on me The time is right
This very night
To smite the horde
Wtih fire and sword Help me please
I'm on my knees
The lotus freeze
Has got a hold on me Help me please
I'm on my knees
The lotus freeze
Has got a hold on me
