

Positivity

Ashley Tisdale

Won't you show me some, baby?
I gotta get some, baby
Won't you show me some, baby?
Show me some positivity
Show me some positivity From where I stand, I see
A world of possibilities
So don't be going negative on me
Oh baby Love is hard but that's alright
Give it time, it's worth the ride
You know it's all in the way you're You're looking at me
I'm looking at you
What more do you want?
Show me some positivity It's all that I got
It's leading me on
Can't leave it alone
Show me some positive You're making it harder
Than it has to be
So won't you please show me
Some positivity
Some positivity Won't you show me some, baby?
I gotta get some Wish I could get into your mind
So I could see if I'm inside
'Cause I know you're right here in mine
Ooh baby The glass is half full, not empty
Why do you think you won't get none?
You know it's all in the way you're You're looking at me
I'm looking at you
What more do you want?
Show me some positivity It's all that I got
It's leading me on
Can't leave it alone
Show me some positive You're making it harder
Than it has to be
So won't you please show me
Some positivity
Some positivity Don't bring me down witcha baby, no
I'm on a high up here
And I don't wanna let go
So I'm gonna tell you one more time Won't you give me some, baby?

I got me going crazy
Oh baby, give it to me
Give it to me, baby, now You're looking at me
I'm looking at you
What more do you want?
Show me some positivity It's all that I got
It's leading me on
Can't leave it alone
Show me some positivity You're making it harder
Than it has to be
So won't you please show me
Some You're looking at me
I'm looking at you
What more do you want?
Show me some positivity It's all that I got
It's leading me on
Can't leave it alone
Show me some positivity You're making it harder
Than it has to be
So won't you please show me
Some positivity
Gimme, gimme, gimme some I gotta get some, baby
Won't you show me some, baby?
I'm not a model baby
Oh baby, give it to me You got me going crazy, crazy, crazy
Oh baby, give it to me
Won't you show me some, baby?
I gotta get some, baby
You got me going crazy
