The Good Old Days

The Libertines

I know Im not too much of a bargain And you know thats not what you bargained for As the hours turn into days Pretty soon lost in the haze Its up to you and me and whos to say These could be the good old daysI like waking up after a bad dream Makes it feel like life aint bad Little kids go out to play Theyre just happy its another day Its up to you and me and whos to say These could be the good old daysI guess I could be a quiet hero No one knows the good Ive done Youre not sure well thats okay Cause I am and Im not afraid Its up to you and me and whos to say These could be the good old days
