Empty Tears Empty Heart

Hale

Stay still, I'm watching you breathe
Just hold still, just a little bit longerI'll keep on holding on for you
Until everything is through
Tell me where would I go back
Just to reach youDon't leave me here alone again
Don't leave me hanging out dry
Don't leave me here alone again
'Cause I can't dieI will return to my senses
With my empty tears and my empty heartI'll keep on holding on for you
Until everything is through
Tell me where would I go back
Just to reach youDon't leave me here alone again
Don't leave me hanging out dry
Don't leave me here alone again
'Cause I can't die
I can't die, I won't cry without youDon't let your hair slide down
'Cause I wanna see your face
Oh please don't let me fall down
Alone without youDon't let your hair slide down
'Cause I wanna see your face
Oh please don't let me fall down
Alone without you, and all of youDon't leave me here alone again
Don't leave me hanging out dry
Don't leave me here alone again
'Cause I can't die
I can't die, I won't cry without you
