

# Right Now

## Marshall Crenshaw

(sylvester bradford, al lewis)I'm all alone, so come on over baby right now, right now

I'm all alone, so come on over baby right now, right now

Well now don't fool around child, don't you let me down,

Come on along, come on along

I wanna dance, I need romance, baby right now, right now

I wanna dance, I need romance, baby right now, right now

Well now don't hesitate, child, don't you make me wait

Come on along, come on along

Let's think of something to do and let's do it

Let's think of somewhere to go and let's go

Can't wait to get my lovin' arms around you

Oh child you know I really love you so

Oh, I need a thrill, say you will

Baby right now, right now

I want a thrill, oh say you will

Baby right now, right now

Don't fool around now around and

Don't you let me down, come on along

Let's think of something to do and let's do it

Let's think of somewhere to go and let's go

Can't wait to get my lovin' arms around you

Oh child you know I really love you so

Oh, I need a thrill, I know you will

Baby right now, right now

I want a thrill, oh say you will

Baby right now, right now

Well now don't hesitate, child, don't you make me wait

Come on along, come on along

Mickey curry: drums

David miner: bass guitar
