

# Heaven Knows

Tessanne Chin

heaven knows my heart and all that its been thinking  
i don't know where to start but i might as well start speaking  
when i try to explain all the words don't come out  
'cause you're leaving me speechless somehow i wish i could show you all the ways you make me feel  
every time that i hold you , yeah  
all of the dreams seems real and that's why  
every little piece of me wants to love ,  
every little piece of you  
and if it don't show  
heaven knows , heaven knows  
heaven knows , heaven knows Here and now, can you hear my heart beating?  
That's the sound, the sound of my body speaking  
Telling you I want, telling you I need  
Telling you're the one for me  
I said here and now, can you hear my heart beating for ya?  
Boom, boo-boom beating for ya  
Boom, boo-boom beating for ya  
Boom, boo-boom beating for ya  
Boom, boo-boom for ya Heaven knows my heart  
'Cause believe me it's been through it  
So many battle scars, do you love me with these bruises?  
There's no way to repay this you're love bailed me out  
See you're leaving me speechless somehow I wish I could show you all the ways you make me feel  
Every time that I hold you, yeah  
All of the dreams seem real and that's why  
Every little piece of me wants to love all every little piece of you  
And if it don't show  
Heaven knows, heaven knows  
Heaven knows, heaven knows Here and now, can you hear my heart beating?  
That's the sound, the sound of my body speaking  
Telling you I want, telling you I need  
Telling you're the one for me  
I said here and now, can you hear my heart beating for ya?  
Boom, boo-boom beating for ya  
Boom, boo-boom beating for ya  
Boom, boo-boom beating for ya  
Boom, boo-boom for ya If the words don't come out right  
Know they're written in the sky  
Beating in our heart tonight (tonight, night)

If the words don't come out right  
Know they're written in the sky  
Beating in our heart tonight (tonight, night) Here and now, can you hear my heart beating?  
That's the sound, the sound of my body speaking  
Telling you I want, telling you I need  
Telling you are the one for me  
I said here and now, can you hear my heart beating for ya?  
Boom, boo-boom beating for ya  
Boom, boo-boom beating for ya  
Boom, boo-boom beating for ya  
Boom, boo-boom for ya  
Boom, boo-boom beating for ya  
Boom, boo-boom beating for ya  
Boom, boo-boom beating for ya  
Boom, boo-boom You're the one, you're the one  
You're the one, you're the one
