War Is The Answer

Five Finger Death Punch

This ain't a test, fuck the rest
Time to set the record straight
Talk your shit behind my back
Let's hear you say it to my face
I've heard the words roll out your lips
You little tricky fucking bitch
The time has come to get you some
'Cause I just do not give a shit
Do you take me for a fool?
How's it feel to be a tool?
See to me you're just a cancer
Motherfucker, war is the answer
As of now the end begins
I want to laugh but there's no joke
To eat with the beasts and run with the wolves
On the ashes you must choke
I know it's got to chap your ass to think
I just won't go away

Affects me not, I'm writing you off
I got nothing more to say
Do you take me for a fool?
How's it feel to be a tool?
To me you're just a cancer
Motherfucker, war is the answer, the answer
You wanna disrespect me you little fucking punk
Everything I've done to be who I am
As far as I've fucking come
I'll slap you so fucking hard it'll feel like you've kissed a freight train
Fuck you
Do you take me for a fool?
How's it feel to be a tool?
Talk your shit behind my back
See to me you're just a cancer
The time has come to get you some
Motherfucker, war is the answer
