(Lil Eddie)Ooh-ooh-ooh. Ooh-ooh-ooh.Weekend has arrived everybody's tryin to find something to get into

My friends wanna go out but I can't cancel my plans

Got a date with my baby she's taking me out so I'm gonna catch up with you some other day  
Gotta go can't make her wait (tonight).Have to make sure I'm looking hot 'cause we're going to our favourite  
spot till the morning we're gonna rock(girl you rock me up)My baby doesn't matter what's going on or who's  
around us (all I see is you)

Right now they're playing our song dancefloor is ours(all I see is you)

The dj's got me feelin' like I did when I first met you and there's nothing that can't break us apart in 2  
'cause all I see is youI get lost in time when you're lookin'in my eyes and we're body to body

I don't want you to rush 'cause you're feeling like heaven to me (follow the rhythm)

And keep it real close in the dark everthing goes love it better when you touch baby 'cause we've just begun  
Have to make sure I'm looking hot 'cause we're going to our favourite spot till the morning we're gonna  
rock(girl you knock me out)My baby doesn't matter what's going on or who's around us (all I see is you)

Right now they're playing our song dancefloor is ours(all I see is you)

The dj's got me feelin' like I did when I first met you and there's nothing that can't break us apart in 2
