

It's Alright With Me

George Strait

It's alright with me
If it's alright with you
It's alright I know
Your love will see me through
When the car won't start
The rain won't stop
And all of the bills are due
It's alright with me
If it's alright with you Well the boss man rides me all week long
And it's all that I can take
I work each day till' the sun is gone
And no time for a break
But when I get home you rub my back
And tell me I'm your man
With a little love I get back on track
And do it all over again It's alright with me
If it's alright with you
It's alright I know
Your love will see me through
When the car won't start
The rain won't stop
And all of the bills are due
It's alright with me
If it's alright with you No matter what life throws at me
I've got the upper hand
'Cause nothin' else can set me free
The way your lovin' can
If I lived in the shack out in the woods
And never see me blue
I just throw another log in the old wood stove
And make sweet love to you
