I Like the View

Lil Wayne

[Hook - Lil Wayne]
I stepped on a flower, foot on the petal
Good wasn't home, so I settled for better
I'm on my way to get it, but get it got shot
So I guess I gotta work with the little bit I got
Now I'm like "heyyyy, I like the view from here!"
I'm so high I can't see you from here
Both eyes on the money, it's looking back at me
Man these b****** just looking for a daddy
Pussy getting problems, can't live without em
The weed too loud, turn up the volume
Richer than a b****, but I can't buy tomorrow
That's why I go hard, ho
[Verse 1 - Lil Wayne]
God bless the world, and most people in it
It's anybody's game, but nobody's winning
Mona lisa smile, that b**** barely grinning
Take you off the face of the earth like a blemish
We went from boyz to menace, menace to society
Now we get higher, call that shit karate
Blame it on the money, the money is the bad guy
Smoke so much good, I don't even have a bad side
Yeah, I got a pussy hangover
B****** eat me up like my name is Russell Stover
Murder the perception, make em get it right
If I'm flirting with affection, I'm fu***** her that night
I'm a southern delight, louisiana pride
The belly of the beast, it ate me alive
Tell them b****** they'll never take me alive
Ever since the day that I took a walk outside
[Hook - Lil Wayne]
I stepped on a flower, foot on the petal
Girl was a ho so I sat over better
I'm on my way to get it, but Giddy got shot
So I guess I gotta work with the little bit I got
Now I'm like "heyyyy, I like the view from here!"
I'm so high I can't see you from here.
Both eyes on the money, it's looking back at me
Man these b****** just looking for a daddy

Pussy getting problems, can't live without em
The weed too loud, turn up the volume
Richer than a b****, but I can't buy tomorrow
That's why I go hard, ho
[Verse 2 - Lil Wayne]
And we all kiss our mommas,
Cuz promises are broken but tomorrow is a promise.
Think I'm gettin sick; I'm feelin' illegal
And not having money is the root of all evil.
Life is a midget, so try to live it up.
It's Dr. Carter, b****, I got this shit nipped and tucked.
If these walls could talk, they probably won't shut up,
I need some wallpaper, before they start to fuss.
Yeahhhh,
Pick up the phone they call your bluff.
Human growth hormone, now my pockets all buff.
I don't think about the future, it come soon enough.
Motha ****** I don't shoot ya, b****, I shoot her up.
I ain't like these n***** , I don't like these n*****.
I just roll another joint like Spike Lee n****.
And I woke up this morning got the cold out my eyes,
And then I took a walk outside and....
[Hook - Lil Wayne]
I stepped on a flower, foot on the petal
Girl was a ho so I sat over better
I'm on my way to get it, but Giddy got shot
So I guess I gotta work with the little bit I got
Now I'm like "hey, I like the view from here!"
I'm so high I can't see you from here.
Both eyes on the money, it's looking back at me
All these b****** just looking for a daddy
Pussy getting problems, can't live without em
The weed too loud, turn up the volume
Richer than a b****, but I can't buy tomorrow
That's why I go hard, ho.
