

# The Oaf

## Big Wreck

Who'dja drag around my door  
If I keep it cracked they won't be there no more  
And who'dja leave along the way  
Leave 'em there and don't come back today  
Now who's the one that treats you right  
Yeah, leave 'em there and don't come back to fight  
Now who's the lad that wants to be  
It never was and it just can't be meMy luck is wasted  
I'm on the run somewhere  
My luck is wasted  
I'm on the run somewhereThrow the rocks and break the glass  
I'll get down on my knees and kiss your ass  
'Cause you're the one that be in my dreams  
It never was and isn't what it seemsMy luck is wasted  
I'm on the run somewhere  
My luck is wasted  
I'm on the run somewhereNow who's the dragon at my door  
Well I shot it now, it don't come back no moreGonna fire up someday  
My luck is wasted  
I'm on the run somewhere  
Feel my hand wrapped around  
My luck is wasted  
I'm on the run somewhere
