

# Believer In Deed

## Petra

On this journey we begin at birth  
This fleeting moment that we spend on earth  
No second chance to live it all again  
It must be now or never to cherish each endeavor  
What will they say that I have left behind?  
A faithful heritage for all to find  
What will they see?  
I want my legacy to be  
He was a believer in deed  
He had a heart of a different breed  
He made his mark and he lived by his creed  
A true believer, a believer in deed  
Am I living everything I say?  
Am I pointing others to the way?  
Will I leave this world a better place?  
Will Jesus say he knew me? Is Jesus living through me?  
Did I maintain my authenticity?  
A man of honor and integrity  
Remembering me  
I hope that they will truly see  
He was a believer in deed  
He had a heart of a different breed  
He made his mark and he lived by his creed  
A true believer, a believer in deed  
At the end of my days I know I'm gonna say  
"I wouldn't live my life any other way"  
I'll look to my posterity to carry on for me  
And pray that they will say  
He was a believer in deed  
He had a heart of a different breed  
He made his mark and he lived by his creed  
A true believer, a believer in deed  
A true believer, a believer in deed  
A true believer, a believer in deed  
A true believer in deed
