Candy

Wake Owl

Go to the city girl, where the boys want you, if it is your dream,
well its not my dream
Oh this candy world is getting to me, and I need someone,
but you ain't got what I need
Would you like to do it if the sun is up, and we can touch,
I do it always, I do it always.
Would you like to say how much it was, to be in love,
I've been here always. I've been here always
I have learned a lot, maybe too much, about myself
can you change my mind
People want to tell me things, like how to be, like I need some help,
but none of this is mine
I ain't got what you need, I'm full of myself all me,
I ain't got what you need, my love has never been seen
I ain't got what you need, I'm full of myself all me,
I ain't got what you need, my love has never been seen
I ain't got what you need, I'm full of myself all me,
I ain't got what you need, my love has never been seen
I ain't got what you need, I am full of myself all me,
I ain't got what you need, my love has never been seen
Would you like to do it if the sun is up, and we can touch,
I do it always, I do it always,
Would you like to say how much it was, to be in love
I've been here always. I've been here always.
