Close Enough

Laura Branigan

I've been waiting all of my life
For you, stranger, you are a light
The light that shines in me
The one who holds the key to my love foreverClose enough
We're close enough to fall in love
We're close enough
Just enough to make it last
Now there's no turning back
We'll do it together
We're close enoughOpen arms reach out to my soul
Hold me closer, in from the cold
And now the time has come
To keep the love we found here foreverClose enough
We're close enough to fall in love
We're close enough
Just enough to make it last
Now there's no turning back
We'll do it togetherAnd now, now the time has come
To keep the love we foundJust close enough
We're close enough to fall in love
We're close enough
Just enough to make it last
Now there's no turning back
We'll do it togetherClose enough
We're close enough to fall in love
We're close enough
Just enough to make it last
Now there's no turning back
We'll do it togetherWe're close enough to fall in love
We're close enough
Just enough to make it last
Now there's no turning back
We'll do it togetherClose enough
We're close enough to fall in love
We're close enough
Just enough to make it last
