Holding

John Hartford

Well you asked was I holding
I said no I'm not holding
I thought you was holding, it's true
But here I'm not holding
And since you're not holding
My dear, what on Earth will we do
Now you know when I'm holding
There's no need you holding
And you know the same about me
And if you run out
Before I run out
You can always get some from me

Now if you ain't got none
And if I ain't got none
We can go find some other head
Find out if they're holding
Get down and start rolling
And smoke what they're holding instead
