

Block Party

Swollen Members

Nuclear power, you can feel
How we're changing up the game, things won't be the same
After we done with it
We're hollering at you all, like come get it
Bump bump bump, bump bump bump
All the girls say
Bump bump bump, bump bump bump
When the roof come tumblin' down
You know we the cause of that, I'ma go down
In history as some kinda alien rhymer
Who blew up the planet then left in a space liner
And took all the bitches with him and then hit 'em
My man Nucleus provided this dumb rhythm
Dumb meaning good, not dumb meaning stupid
You all don't believe it then you can come see me do it
My truth is my truth, that's all there is to it
I say what the fuck, I feel it, get used to it
It's an incredible game
I got love for my partners, we know we're the same
Ooh, sometimes I'm wildin' out
Set the building on fire then you fallin' out
And then we can turn it into a block party
And get some drinks on while you call the cops on me
Nuclear power, you can feel
How we're changing up the game, things won't be the same
After we done with it
We're hollering at you all, like come get it
Bump bump bump, bump bump bump
All the girls say
Bump bump bump, bump bump bump
I keep a ton of them runnin' like mascara
Prev one numba one in the last era
Now that's terror you should call me the crypt keeper
Smokin' green reefer with the grim reaper
I'm the kind of rapper you should keep in your household
Turn up the heat because everything in my mouth cold
I'm a ball of ice and rock
Hurling words at a speed that's unorthodox
Clashing worlds, Pandora's Box

Burning herb, twenty past four o'clock
When my cell mates loose all hell breaks loose
Hit you from above and put some shells on your roof

Tell him to move, run through obstacles
Retrospect, laser opticals
Seven nation armies couldn't hold me back
When I swing a battle axe, Ima make a skull crack
Nuclear power, you can feel
How we're changing up the game, things won't be the same
After we done with it
We're hollering at you all, like come get it
Bump bump bump, bump bump bump
All the girls say
Bump bump bump, bump bump bump
Ain't no holdin' us back like crack addicts
Tell your whole camp to pack up, I'm back at it
As a matter of fact I'm strapped with raps of combat
Full combat, you don't want that
I'll put you in a headlock, twist your arm back
Rip up your throat back, snatch your change
Got a lotta great friends but I act so strange
I wonder if it's anything to do with fame
I wonder how many of them would like to ruin my name
Careful what you wish for it might come true
Then every move I make you're like can I come too?
Then everyone I meets like how can I join you?
I ain't pretendin' that its not strenuous
My girlfriend's jealous and my best friend's envious
Stay focused, please remember this
Keep friend's close show enemies what unfriendly is
Nuclear power, you can feel
How we're changing up the game, things won't be the same
After we done with it
We're hollering at you all, like come get it
Nuclear power, you can feel
How we're changing up the game, things won't be the same
After we done with it
We're hollering at you all, like come get it
Bump bump bump, bump bump bump
All the girls say
Bump bump bump, bump bump bump
Fellas go
Bump bump bump, bump bump bump
Ladies go

Bump bump bump, bump bump bump
