The Worst Thing

Buster Blue

So you're in love, it's so good for you
Live it up girl 'cause it never lasts longIt's heaven for now but not for long
It's gonna hurt you, it's gonna make you feel so badOnce I could love, I could trust, I could not doubt
But that was the worst thing that I could do
It was just about the worst thing that I could doMaybe not now but, but it won't take long
Before it's gonna hurt you, truly do some harmOnce I was open, could hope, I had no doubt
But that was the worst thing that I could do
Just about the worst thing that I could do
It was just about the worst thing that I could doOnce I came close to that most elusive fire
Burning with hopeless love and desireBut it was just about the worst thing that I could do
It was just about the worst thing that I could do
It was just about the worst thing that I could do
It was just about the worst thing that I could doEn el pasado estuve ciega como tu
Atrapada y perdida como tu
Embelesada y suspendida en mi jaula de plata
Esos recuerdos te acompanaran toda la vida
