Monsters

Mattybraps

Always facing temptations
God I'm trying to be patient
All these places my mind takes meAsking what's the point of waitingIt's in my head, it's on my mind
It's in my head all the time
It's in my head, it's on my mind
I face it everyday
It's in my head, it's on my mind
It's in my head all the time
It's in my head, it's on my mind
All of this pressure on me and I'm likeAll these voices in my head
Don't know which way to go
Monsters underneath my bed
I've been here before
All these voices in my head
But I won't lose control
Monsters underneath my bed
But we are not friends
Did I mention
Sway back and forth in my conscience
No direction, but I feel you're in my presence
I get lost help me find my way
What it cost for the dreams, I'll pay
Tug of war right here with you
What I do
It's in my head, it's on my mind
It's in my head all the time
It's in my head, it's on my mind
I face it everyday
It's in my head, it's on my mind
It's in my head all the time
It's in my head, it's on my mind
All of this pressure on me and I'm like
All these voices in my head
Don't know which way to go
Monsters underneath my bed
I've been here before
All these voices in my head
But I won't lose control
Monsters underneath my bed

But we are not friendsMonsters under my bed
But they're not gonna win
Cause I'm not gonna let 'em in
Not alone in this conflict
Who I am is in You, who I am is in YouMonsters under my bed
But they're not gonna win
Cause I'm not gonna let 'em in
Not alone in this conflict
Who I am is in You, who I am is in YouAll these voices in my head
Don't know which way to go
Monsters underneath my bed
I've been here before
All these voices in my head
But I won't lose control
Monsters underneath my bed
But we are not friends
