Fox In Its Hole

Jolie Holland

I live just like a fox in its hole
I live just like a fox in its hole
And they'll never knowA fox in the city burrowed under the hive
You bees can buzz around all you want
You'll never know my lifeI live oh just like a fox in its hole
And they'll never knowMy teeth are just like razors
And sharp as the night is long
And honey holds no sway for me
I don't need what they gotI live just like a fox in its hole
I live just like a fox in its hole
And they'll never knowMy God owns the ocean
The river belongs to him
And when that honey all dries up
Those bees won't know how to swimAnd they'll never know
I live just like a fox in its hole
And they'll never know
