

Love and Hate

Ayo

They were in love few years ago now they are in hate
The good old days were full of sunshine now they're full of rain
His arms felt so right and warm every time he touched her
Now his arms feel so cold and wrong but he's her baby's father
What can you do about Love hate sunshine and rain tears and laughter?
Joy pain go or stay before and after
Love hate sunshine and rain tears and laughter
Joy pain go or stay before and after
Before and after
There she goes now look who follows
After everything now they're all wondering
But they could not separate 'cause their love was stronger than their hate Even I am much surprised
But they're my flesh my blood and I'm their child
What can you do about
Love hate sunshine and rain tears and laughter?
Joy pain go or stay before and after
Love hate sunshine and rain tears and laughter
Joy pain go or stay before and after
Before and after
All that suffering we can overcome everything
All that suffering you can overcome everything
All that suffering we can overcome everything
All that suffering we can overcome everything
All that suffering we can overcome everything
All that suffering I can overcome everything
Everything everything everything everything
