

# So Hungry

Ben Lee

Its strange, its mad to want someone so bad  
And cant you tell, feel it in every cell  
Our eyes they meet, I wont accept defeat  
I feel brand new, cant keep my hands off you  
And we get so hungry, we eat each other alive  
We get so hungry, only the strong survive  
We get so hungry, cannot get you off my mind  
If hearts could speak, some things I cant repeat  
Cause you were sent to steal my innocence  
Its all so much, your love, your words, your touch  
Your glare, your scent makes me believe again  
And we get so hungry, we eat each other alive  
We get so hungry, only the strong survive  
We get so hungry, cannot get you off my mind  
We get so hungry, hungry, yeah  
We sleep, we dream, discuss the things weve seen  
We take, we give, this is the way we live  
And we get so hungry, we eat each other alive  
We get so hungry, only the strong survive  
We get so hungry, cannot get you off my mind  
We get so hungry, hungry, yeah  
(We get so hungry)  
So hungry  
(We get so hungry)  
So hungry, yeah  
(We get so hungry)  
So hungry, yeah  
(We get so hungry)  
So hungry
