

Something for the Pain (Apoptygma Berzerk Remix)

Zeromancer

Something for the pain inside me
That will never die
The pain inside me
That will never dieMy heart bleeds, look at you hiding
All the things you endure me
I need you here with me breathing
Wanting you to believe meSomething for the pain inside me
That will never die
The pain inside me
That will never dieI see you in all of these faces
Blush with shame when I think of you
And your pale skin
I sell my soul for youHush Hush
Never enough, never enough
Hush Hush
Never enough, never enoughHush Hush
Never enough, never enough
Hush HushThe pain inside me that will never die
The pain inside me that will never die
The pain inside me that will never dieSomething for the pain inside me
That will never die
Will never die
