

Burning Stuntman

Golden Earring

From the Albums:

* Naked II

* Last blast of the century
Specialize in danger I'm from Niagara Falls

And now I sit here waitin'

Like an idiot for your call

Words cannot explain

That rattlesnake in my bones

Guess it's time to face the truth

I stand here licked by love

And in the name of love

I wanna go go go, like a burning stuntman (4x)

I fry exposed to fire of course

Choke up while I'm breathin' smoke

Come on quench the fire inside my soul

I wanna go go go

A slumbering volcano

About to explode

Puttin' on a smile and then you're takin' of your clothes

Words cannot explain

My heart's red pepper blue

And my blood goes boilin' every time I think of you

I'm in danger how 'bout you

I wanna go go go, like a burning stuntman (4x)

You fry exposed to fire of course

Like a flame whisperin' to a moth

Come on quench the fire inside my heart

I wanna go go go
