

# Leave the World Behind

## Lune

Leave the world behind you  
And leave this world behind  
Leave the world behind you  
You got to leave this world behind

People, can you hear me?  
Here's a message that I'm sending now  
I've got the answer to all your problems  
And tonight I'll be singing it loud

Just surrender yourself to the rhythm  
With your hands up in the sky  
Feel the energy deep inside your system  
And leave this world behind

Leave the world behind you  
Leave the world behind you  
Leave the world behind you  
And leave this world behind  
Leave the world behind you

(Leave this world behind)

Leave the world behind you  
Leave the world behind you  
Leave the world behind you  
You got to leave this world behind

People, can you hear me?  
Here's a message that I'm sending now

Just surrender yourself to the rhythm  
With your hands up in the sky  
Feel the energy deep inside your system  
And leave this world behind

Leave this world behind

Leave the world behind you  
Leave the world behind you

Leave the world behind you  
And leave this world behind

Leave the world behind you  
Leave the world behind you  
Leave the world behind you  
And leave this world behind
