

Rivers

Chevelle

I feel as though you want to live forever
A burden they could steal
It takes much more than toes to swim across
This river that we know
I don't believe the scorpion would die
Clever clever crows
Until the light comes out I'll live it on So look inside
New found demise
So natural
I'm slipping side, sideways
It's blind
Falling out of line
So natural
I'm slipping side, sideways Still friends with vices
Don't care for advice anymore
To our sinners and saints
Lift your bottomless glasses in calm
It's all around
Well, it's all around So look inside
New found demise
So natural
I'm slipping side, sideways
It's blind (blind)
Falling out of line (line)
So natural
I'm slipping side, sideways Sideways [x4] Well it seems as though you want to live forever
Well it takes much more than toes to swim across And slipping
Sideways [x3]
And slipping
Sideways [x3] So look inside (inside)
New found demise (new found demise)
So natural (so natural)
I'm slipping side, sideways
It's blind (blind)
Falling out of line (line)
So natural (so natural)
I'm slipping side, sideways Sideways [x6]
