Earthbound Child

John Butler Trio

Earthbound child, earthbound child
Come up with the shit I'm the earthbound child
Earthbound child, earthbound child
Come up with the shit I'm the earthbound childEarthbound child, earthbound child
Lock onto the shit 'cause you're the earthbound child
Earthbound child, earthbound child
Lock onto the shit 'cause you're the earthbound childWhat goes up they say is coming down
I got my head in the sky and my roots in the ground
I'm not patriotic man for what it's worth
I pledge allegiance to this land and my Mother EarthWhat I am, I said is what I be
I be damned if you cut down all those trees
Clear felling all this good land, I do see
We'll all be damned if you cut down all those treesWhat I am, I said is what I am
I be damned if I stone cold killa man
In the name of a flag, a patriotic game
You got blood on your hands it ain't me to blameEarthbound child, earthbound child
Come up with the shit I'm the earthbound child
Earthbound child, earthbound child
Come up with the shitEverybody crying but they don't know why
Well don't look up now there's a hole in the sky
And if we don't change soon everybody gonna die
You better jump ship now you better hope you can flyOver population say we gotta face
You're gonna send us all away out to outer space
Singing, yippie hurray for the human race
I don't wanna live my life in no outer spaceEarthbound child, earthbound child
Come up with the shit I'm the earthbound child
Earthbound child, earthbound child
Come up with the shit I'm the earthbound childEarthbound child, earthbound child
Come up with the shit I'm the earthbound child
Earthbound child, earthbound child
Come up with the shit I'm the earthbound childI got six white candles
You know they're too hot to handle
You know I'm lighting them up
'Cause you know I'm a vandalSticking them up all around my room
'Cause ya know what I'm into
Oh yeah, the voodoo
Yes I go hardYes I go the full mile, yes I go hard
I'm going full with style, yes I go hard
You know I'm wick a wild

You know what they call me I'm the earthbound childEarthbound child, earthbound child
Come up with the shit I'm the earthbound child
Earthbound child, earthbound child
Lock onto the shit 'cause you're the earthbound childEarthbound child, earthbound child
Come up with the shit I'm the earthbound child
Earthbound child, earthbound childCome up with the shit
Lock onto the shit
Come up with the shit
Lock onto the shit
