All I Want

Kate Earl

I'd like to tell you what I saw,
The sleeping dreams of four-years-old:
I stood upon the stage so tall,
Sea of people floating down below
And farther than my eyes could see,
These outstretched hearts were turned toward me
Well from the center of my beam,
The purest love was flowing freelyIf I could touch one lonely soul,
If I could heal and be so bold
To be a spark, to be a light,
Set one heart on fire;
That's all I ever wanted
That's all I want,
That's all I ever really wanted...
That's all I ever wantedIf it's wrong for me to want to change the world with what I got
Let me make my own mistakes,
That's a chance I'm gonna take
If I'm right, I saw you all,
In my dreams so long ago
And if you're broken, you should know,
I'm here, you're not aloneIf I could touch one lonely soul,
If I could heal and be so bold
To be a spark, to be a light,
Set one heart on fire;
That's all I ever wanted
That's all I want,
That's all I ever really wanted...
That's all I ever wantedStar light, star bright, I'm gonna make it right
Star light, star bright, I'll be their star tonight
Star light, star bright, yes I may, yes I might
Alright, alright, I'm gonna make it rightIf I could touch one lonely soul,
If I could heal and be so bold
To be a spot, to be a light,
Set one heart on fire;
That's all I ever wanted
That's all I want,
That's all I ever really wanted...
That's all I ever wanted
